

## THE RESEARCH JOURNAL TRANSPORT: PEER-REVIEWING PROCESS IN 2017

Olegas Prentkovskis<sup>1</sup>, Raimundas Junevičius<sup>2</sup>, Paulius Skačkauskas<sup>3</sup>

<sup>1</sup>*Editor-in-Chief of the Research Journal TRANSPORT, E-mail: olegas.prentkovskis@vgtu.lt*

<sup>2</sup>*Deputy Editor-in-Chief of the Research Journal TRANSPORT, E-mail: raimundas.junevicius@vgtu.lt*

<sup>3</sup>*Managing Editor of the Research Journal TRANSPORT, E-mail: paulius.skackauskas@vgtu.lt*

3 November 2017

At present, transport is one of the key branches playing a crucial role in the development of economy. Reliable and properly organized transport services are required for a professional performance of industry, construction and agriculture. The public mood and efficiency of work also largely depend on the valuable functions of a carefully chosen transport system. A steady increase in transportation is accompanied by growing demands for a higher quality of transport services and optimum efficiency of transport performance. Currently, joint efforts taken by the transport experts and governing institutions of the country are required to develop and enhance the performance of the national transport system conducting theoretical and empirical research.

TRANSPORT is an international peer-reviewed journal covering main aspects of transport and providing a source of information for the engineer and the applied scientist. The journal TRANSPORT publishes articles in the fields of transport policy; fundamentals of the transport system; technology for carrying passengers and freight using road, railway, inland waterways, sea and air transport; technology for multimodal transportation and logistics; loading technology; roads, railways; airports, ports; traffic safety and environment protection; design, manufacture and exploitation of motor vehicles; transport energetics; fuels, lubricants and maintenance materials; teamwork of customs and transport; transport information technologies; transport economics and management; transport standards; transport educology and history, etc.

To peer-review manuscript submissions, the research journal TRANSPORT uses the interactive system ScholarOne Manuscripts (formerly known as *Manuscript Central*, <http://mc.manuscriptcentral.com/stra>).

All manuscripts submitted through *ScholarOne Manuscripts* are peer-reviewed by members of the Editorial Board or appointed experts. The minimum number of score sheets (peer-review forms filled by reviewers for each submitted manuscript) amounts to three and the average number of score sheets (peer-review forms) is 3.4 (in 2017).

In 2011–2017 the research journal TRANSPORT has been published by Vilnius Gediminas Technical University in partnership with the Lithuanian Academy of Science and Taylor & Francis. Decision ratios of the submitted manuscripts in 2011–2017 (source: TRANSPORT *ScholarOne Manuscripts*, data until 3 November 2017) are presented on Fig. 1. Acceptance ratios of the submitted manuscripts in 2011–2017 (source: TRANSPORT *ScholarOne Manuscripts*, data until 3 November 2017) are presented on Fig. 2. Decision ratios of the submitted manuscripts in 2017 (source: TRANSPORT *ScholarOne Manuscripts*, data until 3 November 2017) are presented on Fig. 3.

Success and quality of the research journal TRANSPORT depends to a large extent on the activity and performance of its Editorial Board and Reviewers. Reviewers are scientists who volunteer to contribute to the improvement of the quality of transport engineering and transport management fields by guiding authors in their efforts to publish their research outputs that help to enlarge the scientific content of the research journal TRANSPORT, for which we feel truly grateful.

Thus, *on behalf of the Editorial Board of the research journal TRANSPORT we would like to express our gratitude to the following reviewers* (Table) for their important contribution to the quality of scientific articles submitted in 2014–2017 (accepted in 2015–2017), which were peer-reviewed and part of them – published in TRANSPORT 32(1, 2, 3, 4) 2017 or as ‘Article in Press’ (Latest Articles on www).

Fig. 1. Decision ratios of the submitted manuscripts in 2011–2017  
(note: ‘revised submissions’ follows ‘minor revision’ or ‘major revision’ after ‘original submissions’)

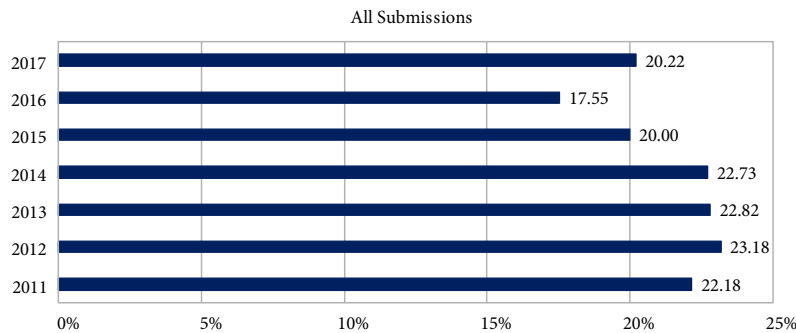

Fig. 2. Acceptance ratios of the submitted manuscripts in 2011–2017

Fig. 3. Decision ratios of the submitted manuscripts in 2017  
(note: ‘revised submissions’ follows ‘minor revision’ or ‘major revision’ after ‘original submissions’)

Table. List of the reviewers of the scientific peer-reviewed articles submitted in 2014–2017 (accepted in 2015–2017 and published in TRANSPORT 32(1, 2, 3, 4) 2017 or as 'Article in Press')
